

Can I send a PDF or a JPG (or other image file)?

Scanned images of paper forms, even if stored as PDF files, are not acceptable. Image files cannot be processed.

In general, PDF files cannot be processed. If you are creating a PDF from some other electronic format (*e.g.*, using **Save As PDF** from Microsoft Excel) send the original file instead. If you have pesticide reporting software that does not save your report in any format except PDF, we may be able to process the report.
