

Units of Measurement Issues

Issue	Explanation/Solution
Non-specific units of measurement are reported.	Do not report values such as <i>pieces, packs, chunks, G, each, bags</i> or <i>seconds</i> that cannot be converted into an accepted unit of measurement ..
Rate of application is reported in the units column.	Report the unit of measurement applicable to the quantity applied or sold , not the rate of application (e.g. <u>not</u> 1000 lb/acre).
