Overview

The Option A PRL eForm program is an application designed to assist you in electronically recording [Pesticide Reporting Law](#) (PRL) information and reporting it to the [NYS Department of Environmental Conservation](#). Each time you run the program you are asked to enter or verify some basic contact information. You can then view and fill out electronic forms that are similar to the four paper forms used to report pesticide usage and sales.

Option A runs under Microsoft Windows®.

After you [download](#) the Option A installation file, see the [PRL Software Installation Guide](#) to help you install the software on your computer.

If you need further assistance, [contact](#) the [Pesticide Reporting Service Bureau](#).

Getting Started

There are a couple of ways¹ to open up the main window:

- Double-click the "**PRL Option A**" shortcut on your computer's desktop.
- Click on the Windows **Start** button and navigate to **Programs -> Pesticide Reporting -> PRL Option A**. Windows 8 users will have a "**PRL Option A**" icon on their **Start Screen**.

A message box saying something like "Data directory created called 'C:\PRL2011'." may appear. This is normal. The [data directory](#) is the location to which your data files will be written. The [Registration form](#) then opens.

Select a form to open

☒ **eForm 26: Applicator/Technician Pesticide Usage**
☐ **eForm 26A: List of Applicators and Technicians**
☐ **eForm 27: Pesticide Sales to Private Applicators**
☐ **eForm 25: Restricted Pesticide Sales**

Check here if you wish to maintain separate application files (Form 26) for each Applicator. (Not required by DEC.) If you use this feature, fill out the Form 26A first, before filling each applicator's Form 26.

IMPORTANT INFORMATION: Please enter your identity information above. You must include either your Certification ID number, Commercial Permit Number, or Business Registration Number if applicable. Also required is a contact name and phone, with area code, and an email address. After providing contact information, select the desired pesticide reporting form and click Blank Form (to start a blank form) or Existing Form to open a previously created form.

Registration Form

Entering Contact and Identity Information

Use the [Registration form](#) to tell us who to contact when we communicate with you about your report. You also need to provide identification information so that we can associate your report with the correct applicator(s) or organization.

Are you in the pesticide application or sales business?

Pesticide application businesses should submit

- a [certification ID](#),
- the **Applicator Name** associated with the [certification ID](#),
- optionally, a [business registration number](#), and
- optionally, the **Business Name**.

Pesticide applicators should submit

- a [certification ID](#), and
- the **Applicator Name** associated with the [certification ID](#).

Pesticide sales businesses should submit

- a [commercial permit number](#),
- the **Business Name**,
- optionally, a [certification ID](#), and
- optionally, the **Applicator Name** associated with the [certification ID](#).

Multiple Applicators or Sales Permits

If your organization employs [multiple applicators](#), just choose one of them to enter in this form.

If your business has more than one [business registration number](#), enter the one for the main business office. You may — but are not required to — submit the other [business registration numbers](#) using a [Form 26A](#). See this [FAQ](#) for more information.

If your business has more than one [commercial permit number](#), you may enter one number here and provide separate [Form 25s](#) or [Form 27s](#) for each [commercial permit number](#). The header areas of both forms have a [commercial permit number](#) field, which is editable. You may also send us separate reports for each [commercial permit number](#).

Decide Which Forms to Use

If you have [multiple applicators](#) to include on your report, we recommend using [Form 26A](#) to enter their information. The pesticide applications they made should be entered on [Form 26](#). If any of the applicators that you are reporting for made any applications during the report year, you should submit a [Form 26](#).

You may enter all your applications in one file even if they were made by multiple applicators; we do not need a separate report for each applicator.

If you are reporting for a pesticide sales business and you sell restricted-use pesticides, use [Form 25](#). If you sell pesticides to private applicators, we will need a [Form 27](#). If you have a [commercial permit number](#), you must submit either [Form 25](#), [Form 27](#), or both.

Be sure to include applicators who [did not make applications](#) on your report and applicators who left your organization during the report year. If your organization is a pesticide sales business, you must file a report even if you [did not make any sales](#) during the report year.

You can report two different types of sales on [Form 25](#); report either sales to another [commercial permit holder](#) who will resell the products or sales to [commercial applicators](#) for their end use. In Options A and B, there are a set of radio buttons in the [Form 25](#) header where you can specify the sales type. Options D and O have drop-down lists for specifying the sales type. If you have both types of sales to report, please send us a separate form for each type. However, you do not need to complete a form for the type of sales you did not make (but you still need to report even if you [did not make any sales](#)).

Opening up a Form

When you have decided which form(s) to use, click the corresponding radio button in the **Select a Form to Open** area. Do you want to start a new file or add to an existing one? To start a new file, click on the **Blank Form** button. For an existing file, click the **Existing Form** button. This will open up a dialog in which you can choose the file you want.

More Registration Form Functions

There are [several buttons and menu items](#) available on the [Registration form](#) that can help you prepare and submit your [PRL](#) report.

Report Forms

The [PRL](#) report forms are where you will enter the data that you need to report to the NYSDEC. Each form is used to report [a particular type of pesticide-related activity](#).

Identity Fields

The identity fields in the header area of each form are filled with the values you entered on the [Registration form](#). With the exception of the [commercial permit number](#), these fields are not editable.

The [commercial permit number](#) field is editable so that you can report for multiple [commercial permittees](#) in one report submission. Changes to the [commercial permit number](#) field on Form 25 or 27 do not update the field on the [Registration form](#).

[Form 26A](#) also includes a [business registration number](#) column. If your pesticide business has more than one [business registration number](#), you *may* but are not *required* to include all of your business's registration numbers on the [Form 26A](#).

Reporting No Activity

On each of the forms you can indicate that there was [no reportable activity](#) for the report year. See [Reporting No Applications or Sales](#) for more information.

Data Entry Grid

Below the header area of each form is a data entry grid. If you have applications or sales to report, enter each pesticide application or sales record in its own row in the grid. Although the forms open with a limited number of rows, additional rows will be added to the grid as needed.

On Form 25, 26, and 27 the data entry grid is hidden if you have indicated that you have [No Applications \(or No Sales\)](#) to report.

You can use the arrow keys, tab keys, Enter key, or mouse to move from one cell in the grid to another.

If you hover over a cell with your mouse, a tool tip containing a data description for that cell will display. Additional information about the fields on each form is available from the [Data Dictionary](#).

Cells are [validated](#) as you move the insertion point to the next cell. While it is possible to save and submit your files without correcting validation errors, the [Pesticide Reporting Service Bureau](#) may reject or return reports because of invalid data.

Please Note

Ditto marks or use of the words "ditto", "same", or similar entries are not accepted by the [Pesticide Reporting Service Bureau](#). Instead, you can use the [EPA Reg Number List](#), or copy and paste as a convenient way to enter the same information repeatedly.

Report Form Menus and Controls

The forms have a set of [menus and controls](#) designed to assist you in creating your [PRL](#) report.

Record Layouts

Reporting Columns

For each product in each pesticide application, report these fields using [Form 26](#). All columns are required except for the **End Date**.

1. [EPA Registration Number](#)
2. [Product Name](#)
3. [Quantity](#)
4. [Units of Measure](#)
5. [Application Date](#)
6. [End Date](#)
7. [County Code](#)
8. [Address](#)
9. [Municipality](#)
10. [Zip Code](#)

Record Keeping Columns

These columns are optional; you may use them to fulfill the record keeping requirements of the [PRL](#).

11. [Dosage Rate](#)
12. [Method of Application](#)
13. [Target Organism\(s\)](#)
14. [Place of Application](#)

For each [commercial applicator](#), [technician](#) and [anti-fouling applicator](#) report these fields using [Form 26A](#). All columns are required.

1. [Certification ID Number](#)
2. [Business Registration Number](#)
3. [Applicator First Name](#)
4. [Applicator Last Name](#)
5. [Applications Indicator](#)

For each sale of [restricted use pesticides](#) or [general use](#) agricultural pesticides to [certified private applicators](#), report these fields using [Form 27](#). All columns are required.

1. [EPA Registration Number](#)
2. [Product Name](#)
3. [Quantity](#)
4. [Units of Measure](#)
5. [Date Sold](#)
6. [County Code](#)
7. [Address](#)
8. [Municipality](#)
9. [Zip Code](#)

For each container size of each [restricted use pesticide](#) sold to New York purchasers, report these fields using [Form 25](#). All columns are required.

1. EPA Registration Number
2. Product Name
3. Container Size Quantity
4. Container Size Units
5. Containers Sold
