

Decide Which Forms to Use

Decide Which Forms to Use

If you have [multiple applicators](#) to include on your report, we recommend using [Form 26A](#) to enter their information. The pesticide applications they made should be entered on [Form 26](#). If any of the applicators that you are reporting for made any applications during the report year, you should submit a [Form 26](#).

You may enter all your applications in one file even if they were made by multiple applicators; we do not need a separate report for each applicator.

If you are reporting for a pesticide sales business and you sell restricted-use pesticides, use [Form 25](#). If you sell pesticides to private applicators, we will need a [Form 27](#). If you have a [commercial permit number](#), you must submit either [Form 25](#), [Form 27](#), or both.

Be sure to include applicators who [did not make applications](#) on your report and applicators who left your organization during the report year. If your organization is a pesticide sales business, you must file a report even if you [did not make any sales](#) during the report year.

You can report two different types of sales on [Form 25](#); report either sales to another [commercial permit holder](#) who will resell the products or sales to [commercial applicators](#) for their end use. In Options A and B, there are a set of radio buttons in the [Form 25](#) header where you can specify the sales type. Options D and O have drop-down lists for specifying the sales type. If you have both types of sales to report, please send us a separate form for each type. However, you do not need to complete a form for the type of sales you did not make (but you still need to report even if you [did not make any sales](#)).
