

# Units of Measurement Issues

Issue	Explanation/Solution
Non-specific <a href="#">units of measurement</a> are reported.	Do not report values such as <i>pieces</i> , <i>packs</i> , <i>chunks</i> , <i>G</i> , <i>each</i> , <i>bags</i> or <i>seconds</i> that cannot be converted into an <a href="#">accepted unit of measurement</a> ..
The rate of application is reported in the units column.	Report the <a href="#">unit of measurement</a> applicable to the <a href="#">quantity applied</a> or <a href="#">sold</a> , not the rate of application (e.g. <u>not</u> 1000 lb/acre).
