

Where does the email address for the email messages sent by the Pesticide Reporting Service Bureau come from?

- Reports [uploaded from the PRL Reporting Software](#): the email address is entered on the [Control Center](#) for [Option A or D \(installed version\)](#).
- Reports [uploaded through the NYSPRL website](#): the email address is entered along with other contact and identity information as part of the upload process.

Invalid Email Addresses

It is important that a valid email address is included with the submission because all communication from the Pesticide Reporting Service Bureau regarding your report will be via email. This includes the [Report Acceptance Email](#), which is the primary way to know if your report was accepted.
